

PROFESSIONAL SUMMARY

Final-year Electronics and Communication Engineering student with hands-on experience in Python, Flask, JavaScript, MySQL, REST APIs, AI, and Full-Stack Development. Built scalable software projects, including an AI Smart Agriculture Assistant and a Weather Dashboard, while also developing an RF Transmission Drone integrating embedded systems and wireless communication. Skilled in Machine Learning, Embedded Systems, Git, GitHub, Problem Solving, and Agile collaboration, with a strong passion for building innovative, user-centric software and AI-driven solutions for real-world applications.

TECHNICAL SKILLS

- **Programming Languages:** Python, Java, C
- **Frontend:** HTML5, CSS3, JavaScript (ES6), React, Fetch API, DOM APIs
- **Backend & Databases:** Python Flask, Node.js, RESTful APIs, MySQL, Relational DB Design
- **AI / Machine Learning:** Prompt Engineering, Data Preprocessing, Model Development
- **Core ECE:** Embedded Systems, VLSI Design, RF Communication, PCB-Level Circuit Design, Arduino, UAV Systems
- **Tools & Cloud:** Git, GitHub, VS Code, Arduino IDE, MATLAB, Multisim, Render (Cloud Deployment)

PROFESSIONAL EXPERIENCE

Back-End AI Engineer Intern — FlyRank

Jul 2026 – Aug 2026

- Developed AI-powered applications and automation workflows using Python.
- Implemented and debugged application features, improving overall functionality and user experience.
- Collaborated with the engineering team using Git and GitHub within an Agile development process.

AI & Machine Learning Intern — MY JOB GROW

Sep 2024 – Nov 2024

- Developed machine learning solutions using Python, including data preprocessing and analysis.
- Built AI-based applications leveraging NumPy, Pandas, Matplotlib, and Scikit-Learn.
- Worked on improving model performance and collaborated with mentors on technical documentation.

PROJECTS

AI Smart Agriculture Assistant | Python · Flask · MySQL · REST APIs · JavaScript · Render [GitHub](#) [Live Demo](#)

- Architected a production-deployed, 3-tier AI agriculture platform with NLP interface delivering crop diagnostics, weather-adaptive recommendations, and pest management — achieving <2s end-to-end query resolution.
- Developed full-stack app with HTML5/CSS3/JS frontend, Flask RESTful backend, and MySQL relational layer; integrated 2 third-party REST APIs for real-time, data-driven decision support.
- Engineered intent-based query routing and optimized high-frequency SQL queries, cutting average DB response time ~30%; deployed on Render with 99%+ uptime.

Weather Dashboard | JavaScript (ES6) · HTML5 · CSS3 · REST API · Fetch API [GitHub](#) [Live Demo](#)

- Integrated a weather REST API via asynchronous JavaScript (Fetch API/Promises) for real-time 5-day forecasts and geolocation-based updates with sub-second rendering.
- Designed a responsive, mobile-first UI with dynamic condition-based theming and robust error handling across 10+ weather states.

RF Transmission Drone (UAV) | Arduino · RF Communication · Embedded Systems · PCB Design

- Designed, assembled, and field-tested an RF-controlled UAV with KK 2.1.5 flight controller and 2.4 GHz wireless modules, achieving stable autonomous flight over a 50m range.
- Executed PCB-level circuit testing and firmware calibration across 3 iteration cycles, improving RF signal reliability by 40%.

EDUCATION

B.Tech – Electronics and Communication Engineering

2023 – 2027

Pranveer Singh Institute of Technology, Kanpur | CGPA: 7.1 / 10

Intermediate (Class XII)

2022 – 2023

Shri Guru Ram Rai Public School, Hardoi | Percentage: 72.0%

High School (Class X)

2020 – 2021

Shri Guru Ram Rai Public School, Hardoi | Percentage: 79.4%

CERTIFICATIONS

- Fundamentals of Machine Learning and Artificial Intelligence – AWS Training & Certification
- AI for All – TCS ION
- Web Development: HTML, CSS, JavaScript, Bootstrap, React JS – Udemy
- Getting Started with AI on Jetson Nano – NVIDIA
- VLSI & PCB Design Course – Simplilearn SkillUp
- Oracle Cloud Infrastructure 2025 Certified Generative AI Professional – Oracle University
- Basics of Python – Infosys Springboard

ACHIEVEMENTS

- **Top Finalist – TechExpo 2025 (PSIT Kanpur):** Recognized among top competing teams for AI agriculture platform innovation.
- **International Conference Presenter – EACE-2025 (PSIT Kanpur):** Delivered a peer-reviewed technical paper at the undergraduate level.
- **AIR 347 – CodeQuezt National Coding Challenge (Naukri Campus):** Top-percentile finish among thousands of engineering participants.
